

Complete Aviation Management Platform

brought to you by

**STELLAR**

# Your Complete Aviation Management Platform

FL3XX is the first platform that **integrates the entire workflow** of an aircraft operator from sales, scheduling, and dispatch all the way to training and maintenance management

# Bring Together All Your Teams

FL3XX is a complete software solution for business aviation

## Sales enquiries

All requests from different demand sources (e.g. Avinode, brokers, and your website) appear in FL3XX within seconds.

## All emails in one place

All communications between your and your customers, including outgoing and incoming emails, are accessible in FL3XX.

## Mobile ready

Use FL3XX anywhere: available mobile apps are automatically updated with the latest changes from the web application.

## Pricing and quoting

Be the fastest to respond to customers' requests.

## Data access

All required data is entered or accessed easily and quickly from any device.

## Notifications and warning

All changes made by your team are communicated inside FL3XX. You receive a warning any time the system detects an incorrect setup.

## Sales workflow

Improve your sales team's performance with an intuitive and powerful workspace.

## Online and always in sync

Information is always live, up-to-date, and available to all your team members.

## Accurate reporting

Update your teams daily with KPIs and accurate statistics to improve your sales and operations strategies.

## Documents

All documents are automatically produced inside the system with your company branding.

## Available integrations

Connect to external services to manage your operations from start to finish, all from one system.

# Complete Automation of Your Daily Operations

FL3XX is the cloud-based platform to sell and manage flights from your desktop and mobile devices

Web & Mobile

## A complete end-to-end web application

With FL3XX, everything happens in one unified solution. This eliminates the need for multiple systems or duplicate data entry. Your entire operations are online and accessible anywhere.

## Sales app

Sell from anywhere. Respond with quotes and confirm bookings within seconds.

## Dispatch app

Supercharge dispatch with the entire toolkit in your pocket.

## Crew app

Your crew is always in the loop with the information they need and the ability to submit post-flight data.

## Owner app

Track aircraft location and performance, instantly approve bookings, and get detailed reports.

# The FL3XX Web Application

**Web application**

**FL3XX is the first complete platform that integrates the entire scope of operations for charter operators and flight departments.**

A beautifully designed user interface make selling, scheduling, dispatching, management, and reporting on your flights easier than ever before. With FL3XX, you're finally able to close the loop across all your flight operations functions.

# FL3XX Mobile Apps

## Sales app

FL3XX Sales App brings the power of FL3XX to your mobile device.

### Highlighted features:

- Receive quote requests from your website, Avinode, and online brokers
- Get notifications of incoming requests
- Quickly price all requests
- Send quotes, contracts, and invoices
- See timeline view of entire fleet

With the FL3XX Sales App, increase your selling power by integrating with partners and accessing all sales functions in your device.

## Dispatch app

Supercharge dispatching with the entire toolkit in your pocket.

### Highlighted features:

- Airport information (operational data, weather, hours, etc.)
- Aircraft maintenance status and forecast, including HIL
- Ground handling services and contacts
- Ground transport
- Immigration / customers information
- Slots / PPR / overflight permits
- Flight plan / W&B
- Fuel prices / fuel release
- Post flight / de-icing

# FL3XX Mobile Apps

## Crew app

Keep your crews always in the loop. Your crew can access their flight schedule, flight briefings, and licenses, even when they're in flight mode.

### Highlighted features:

- Airport information (operational data, weather, hours, etc.)
- Aircraft maintenance status and forecast, including HIL
- Crew information, pax list and boarding
- Ground handling services and ground transport
- Hotel arrangements and catering status
- Migration / customs information
- Flight log / tech log
- Roster review
- Slots / PPR / overflight permits & post flight / de-icing
- Flight documents, qualifications, licenses, IDs, and passports
- Notifications for new flights or changes to flights

## Owner app

Stay close to the operator of your aircraft. Receive real-time information on the location and usage of your aircraft.

### Highlighted features:

- Real-time aircraft location and live updates with "Find-My-Jet"
- Current bookings
- Aircraft dimensions
- Your approvals
- Schedule of your aircraft
- Multiple aircraft accounts
- Booking your own flights
- KPIs and reports of the aircraft
- Contact information for the operator

# Integrate with a Business Aviation Ecosystem

Connect and access hundreds of available services with our API connectors

## Online demand

Receive and respond to requests from Avinode and online brokers.

## eAPIS

Manage advanced passenger information automatically.

## More

Connect to maintenance, training, accounting, and many other services and systems.

## Flight Planning

Seamlessly plan your flights with integrated flight planning services.

## Your Website

Gather flight requests directly from your website with FL3XX web widgets.

## Handling

Synchronize effortlessly with FBOs and other service providers.

# Support Is Tailored to Your Needs

Our support offerings are an integral part of the FL3XX service

**We offer either standard business hours or premium 24/7 support.**

Our customer success team is located across the U.S. for your convenience.

**We can provide on-site and online training.**

We realize that change is not always easy, but we make sure that you're up and running as quickly as possible. Onboarding can be as short as 1 day, but usually runs one to two weeks.

**One of our specialists will guide you through the onboarding process.**

We will check your existing data and import it to our system. (The quality depends on your current software.) Most customers are surprised at how easy it is to get set up and start using the FL3XX system.
