

A new era in aviation fuel procurement

Stellar Fuel is revolutionizing fuel and handling procurement for Part-135 Operators whilst empowering Fixed-Based Operators (FBO's). Stellar Fuel fosters a collaborative marketplace that benefits both operator and FBO to reduce costs.

Key Benefits for Operators and FBOs

NETWORK OF SAVINGS

We connect operators with a network of FBOs offering pre-negotiated fuel and handling savings, significantly reducing operating costs for Stellar Members.

COMMITTED PARTNERSHIPS

FBOs gain a committed coalition of operators purchasing fuel directly from the FBO, thereby lowering customer acquisition costs.

EXTENSIVE IN-NETWORK FBOs

Transformative Features:

FLEET PURCHASING POWER

We leverage the collective purchasing power of a large committed fleet to secure fuel and handling prices that individual operators cannot achieve alone.

STREAMLINED FINANCING

By financing transactions on behalf of operators, we alleviate FBOs from the burden of managing multiple contracts and associated carry costs.

CUSTOMIZED PRICING

Receive weekly tailored pricing delivered directly to your operations team.

EFFICIENT INVOICING

Expedite your invoice process, allowing operators to quickly close out trips.

DIRECT RELATIONSHIPS

Foster direct connections between private jet operators and FBOs.

DISCOUNTED NETWORK

Build a network of FBOs offering fleet discount pricing and reduced handling and special event fees.
